PERMISSION TO APPLY OVER-THE-COUNTER CREAMS AND OINTMENTS

This form is to be used for over-the-counter topicals only. Any prescription cream, lotion, ointment, etc. still requires the MSDE OCC Medication Administration Authorization Form 1216 to be completed and submitted. Children are expected to apply these topicals unless the child is unable to do so. Kiddies Kollege Christian Center (KKCC) assumes no liability. The parent(s), on behalf of themselves and their child, hereby holds KKCC harmless and waives any and all claims for personal injury to the minor child as the result of the application or failure to apply any cream/ointment.

This form is to be used for non-medicated sunscreen, lip balm, Vaseline, lotions, creams, ointments, etc that are to be applied to external areas only. Siblings may not share. Any cream, lotion, ointment, etc. must be provided by the parent and labeled in permanent marker with the child's name. It must also have already been applied previously at home with no adverse effects to the child (i.e. rash, irritation, or other reaction). A separate form must be completed per over-the-counter topical, sunscreen, or bug repellent spray.

Child's Name: _____

Type of Topical

Brand Name

Area of Body to be Applied

Apply From / To

----- FOR TOPICAL CREAM OR OINTMENT -----
